Medi-Vac[™] Suction and Fluid Collection Products

Cardinal Health is a global health services and products company focused on delivering scaled logistics, product, business and patient solutions to help our customers thrive in a changing environment. Our respect for the environment and commitment to the health and safety of the community is advocated through the Cardinal Health EHS Policy .

Backed by years of experience, we apply our knowledge and deep understanding of healthcare to deliver inventive and meaningful solutions. As one of the leading companies in suction canisters, we have produced quality fluid management products at our state-of-the-art European manufacturing facility in Malta since 1995. In the last 20 years, we have manufactured over 1 billion suction canisters and 450 million Flexible Liners.

The Medi-Vac[™] fluid management system is the Cardinal Health suction canister system that's been a trusted part of patient care. Cardinal Health is proud to offer three different suction canister systems: CRD[™], Guardian[™] and Flex Advantage[™] Liners to meet the diverse fluid collection and disposal needs of your facility.

The Flex Advantage[™] Flexible Liner System is a convenient solution. Flex Advantage[™] Liners require no canister assembly during setup and are compact to minimize storage requirements.

For more information about Flex Advantage™ Flexible Liners or to place an order, please contact your Cardinal Health sales representative.

Disposable flexible liners

Flex Advantage[™] Disposable Flexible Liners require no assembly step, as the lids are permanently attached to the liners. This minimizes the risk of infectious medical waste leaking from an improperly sealed canister during handling and transport. Engineered for clinician safety, the lids of the Flex Advantage[™] Liners contain integrated filters as well as one-way and shut-off valves.

Flex Advantage[™] Disposable Liners require the use of a reusable outer canister. Cardinal Health offers various types of reusable outer canisters, which can be found on pages 1 and 2 of this catalog, to meet the diverse needs of your facility.

Flex Advantage™ Disposable Liners are also available in kits. For more information, please contact your Cardinal Health sales representative.

65652-587	28 cm roll stand	1/cs
65652-597	28 cm roll stand with regulator mount	1/cs

Not compatible with 3000 ml Flex Advantage[™] Liners.

Eight-canister dual-head roll stand, 76 cm

Each head has four slide mounting locations for canister placement (holds a total of eight canisters).

Cat. No.	Description	Qty.
	76 cm roll stand	1/cs

Reusable accessories

Wall plate

Attachment devices for use with ring brackets.

Wall plate

Vacuum manifolds

Used to connect one vacuum source to multiple canisters.

Four-canister manifold

Three-canister manifold

Two-canister manifold

Wall plate

Used to attach ring brackets to a vertical surface. Predrilled with four 6.35 mm holes.

Cat. No.	Qty.
65652-145	1/cs

Four-canister manifold

Used to connect one vacuum source to four canisters.

Cat. No.	Qty.
65652-004	1/cs

Three-canister manifold

Used to connect one vacuum source to three canisters.

Cat. No.	Qty.
65652-003	1/cs

Two-canister manifold

Used to connect one vacuum source to two canisters.

Cat. No.	Qty.
65652-002	1/cs

D.I.S.S. connection accessories

Allow use with standard vacuum regulator Diameter Index Safety System (D.I.S.S.) connections.

Male D.I.S.S. (metal)

Valve

In-line vacuum on/off valve

Connectors

Allow customization of your suction system.

Tee connection

Tubing barb

Male D.I.S.S. (metal)

Metal replacement for plastic adapter. 3.2 mm national pipe thread metal adapter.

Cat. No.	Qty.
65652-137	1/cs

In-line vacuum on/off valve

Used to turn vacuum supply on and off as well as regulate the flow of the vacuum supply to the canister.

Cat. No.	Qty.
65652-580	1/cs

Tee connection

Used to connect tubing for various applications.

Cat. No.	Qty.
65652-543	1/cs

Tubing barb

Used to connect two pieces of tubing - male to male.

Cat. No.	Qty.
65652-108A	50 ea/cs

Connectors

tel state succe state total his

5-in-1 Straight Connector

Fits five sizes of tubing. Connect same size tubes or use as a reducer for any combination of 5 to 11mm tubing.

Cat. No.	Qty.
350E	500 ea/cs

Sims Connector/Integration Nozzle

Fits tubing with a diameter from 3 to 6mm in seven size increments. May be used to connect same size to same size or as a reducer for any combination from 3 to 6mm.

Cat. No.	Qty.
351E	500 ea/cs

"T" Connector

Used to join three sections of tubing and can be used in setups for bladder irrigation and siphonage. Five steps on each leg of the "T" provide for tubing connections from 5 to 11mm.

Cat. No.	Qty.
352E	150 ea/cs

Straight Connectors

Cat. No.	Description	Qty.
353E	6 mm connector joins two sections of 6 mm tubing	500 ea/cs
354E	8 mm connector joins two sections of 8 mm tubing	500 ea/cs
355E	10 mm connector joins two sections of 10 mm tubing	500 ea/cs

Straight Connectors

Cat. No.	Description	Qty.
358E	6 mm connector fits tubing from 5 to 8 mm	500 ea/cs
9022E	10 mm connector fits tubing from 8 to 11 mm	500 ea/cs

Disposable accessories

Medi-Vac[™] Disposable Accessories make it easy to add auxiliary items to your system. Designed for use with CRD[™], Flex Advantage[™] Liners and Guardian[™] Systems, Medi-Vac[™] Accessories are interchangeable to help you select the most effective setup for your needs.

Specimen socks

Used to collect and retain specimens for analysis.

Standard specimen sock

Short specimen sock

Large-port specimen sock

Female specimen sock

Pour/accessory port convertors

Used to convert the pour/accessory port into an additional patient port.

Pour/accessory port convertor

Pour/accessory port convertor - large

Standard specimen sock

Used to convert pour/accessory port into a male port specimen retainer. Accepts up to 0.95 cm l.D. tubing with male port. Length 22.86 cm.

Cat. No.	Qty.
2-122CE	100 ea/cs

Short specimen sock

Used to convert pour/accessory port into a male port specimen retainer. Accepts up to 0.95 cm I.D. tubing with male port. Length 11.43 cm.

Cat. No.	Qty.
2-123CE	100 ea/cs

Large-port specimen sock

Used to convert pour/accessory port into a male port specimen retainer. Accepts 0.95 cm to 1.27 cm I.D. tubing with male port. Length 22.86 cm.

Cat. No.	Qty.
2-124CE	100 ea/cs

Female specimen sock

Used to convert the pour/accessory port into a female port specimen retainer which will accept tubing sets with preattached hard plastic (or metal) male end fittings. Length 22.86 cm.

Cat. No.	Qty.
2-169CE	100 ea/cs

Pour/accessory port convertor

Used to convert the pour/accessory port into an additional patient port. Accepts up to 0.95 cm l.D. tubing with male port.

Cat. No.	Qty.	
65652-119	10/cs	

Pour/accessory port convertor - large

Used to convert the pour/accessory port into an additional patient port. Accepts 0.95 cm to 1.27 cm I.D. tubing with male port.

Cat. No.	Qty.
65652-120	10/cs

Disposable accessories (continued)

Tubing

Flexible, connecting tubing to adapt your system for various setups.

Bulk connecting tubing

Tandem tube

Critical measure

Small-volume measuring device.

Universal critical measure

Right-angle adapter

Special-use connector.

Right-angle adapter

Bulk connecting tubing

Used to connect vacuum source to canisters and manifolds.

Cat. No.	Description	Qty.
516500CE	8 mm x 30.5 mm	4 ea/cs

Tandem tube

Used to connect Flex Advantage[™] Liners in a series for high-volume setups. Includes internal one-way valve.

Cat. No.	Description	Qty.
2-620CE	50.8 cm long x 8 mm l.D.	30/cs

Universal critical measure

Used to closely monitor collected fluid volume when precise measurements are needed.

Cat. No.	Description	Qty.
1-700CE	Graduated in 5 ml increments up to 300 ml, fits over pour/ accessory port, includes 30.48 cm tandem tube	50/cs

Right-angle adapter

Used in 90° right-angle connections for the Patient Port on the Flex Advantage™ Liners and the Ortho Port on the CRD™ and Guardian™ Suction Canisters

Cat. No.	Description	Qty.
65652-109	Rigid suction canister right angle connector	50/cs
